

Z-Link® Radiant Heat Respirator

Heat Defence

The Radiant Heat kit transforms your Z-Link® respirator into a complete protective system for high heat environments. Utilizing the Z-Link headtop, experience unrivaled comfort as heat is deflected away from you and air continuously circulates throughout the headtop, so you can work safer for longer.

The Radiant Heat kit features a large, gold coated visor that reflects heat off you, keeping your body temperature down, while allowing you to see all of your environment with an uncompromised field of view. With flame resistant and reflective materials this protects you from sparks and splashes while providing additional relief from the heat.

Enhance your experience of safety and productivity in high heat environments by using protection that revolutionizes the way you work, with the Z-Link Radiant Heat.

The Z-Link Radiant Heat is certified to the standards below:

NIOSH
APPROVED
PAPR & SAR TYPE C

ANSI
S3.19
HEARING PROTECTION
Only in conjunction with 19-533 earmuffs.
Z89.1
HARD HAT PROTECTION
Type 1 Class G

EYE & FACE PROTECTION

SEI
Certified Model
Modèle certifié
CSA Z94.3-15
EYE & FACE PROTECTION
Class 7D Respirator Facepiece
PROTECTION DES YEUX ET DU VISAGE
Masque respiratoire classe 7D

Gold coated visor reflects radiant heat, minimizing heat transfer for increased comfort while ensuring eye protection. Visor options include anti-scratch gold coated (pictured), anti-scratch IR5 gold coated, and IR5.

Large visor lift tab enables users to easily raise and lower the visor while wearing gloves.

Air flow is dispersed throughout your breathe zone, as well as over the head, neck, and body to aid in cooling.

Integrated hard hat protection.

The Aluminized fabric is flame resistant and protects the skin from sparks, splashes and radiant heat. Manufactured from Newtex Z-Flex O-310 Aluminized FR O-PAN/Aramid fabric.

Clip-on visor requires no tools for easy detachment and replacement.

Secured cape ensures the hood moves with you for a greater range of movement.

Aluminized breathing tube cover available to increase the life of the breathing tube.

*From local & globally sourced components.

Shade 5 Protection

The shade 5 visor is great for torching or other applications where flip up shade 5 protection is needed and attaches to the Z-Link the same as the heat reflection visor.

Z-Link® Respirator - Packages

Multi-purpose Respiratory Protection

Part # 16-075-21

Z-Link+® Respirator with Weld Visor, Zytac® FR Shoulder Cape and C40™ Climate Control Device

- Safety Lens
- SAR Breathing Tube

Part # 16-015-23

Z-Link® Respirator with Tychem® 2000 Shoulder Cape and C40™ Climate Control Device

- Safety Lens
- SAR Breathing Tube

Part # 16-015-11

Z-Link® Respirator with Zytac® FR Face Seal and C40™ Climate Control Device

- Safety Lens
- SAR Breathing Tube

Part # 16-0061

Z-Link Radiant Heat Respirator with Gold Visor and C40™ Climate Control Device

- Safety Lens
- Aluminized shoulder cape and top, rear, and breathing tube covers
- SAR Breathing Tube

Part # 16-078-21-FR

Z-Link+® Respirator with Weld Visor, Zytac® FR Shoulder Cape and PX5® PAPR

- Safety Lens
- PAPR Waist Belt Assembly
- PAPR Breathing Tube

Part # 16-0036

Z-Link® Respirator with Zytac® FR Face Seal and HX5™ PAPR

- Safety Lens
- PAPR Backpack Assembly
- PAPR Short Breathing Tube

Part # 16-0028

Z-Link® Respirator with Tychem® 2000 Shoulder Cape and PX5® PAPR with Multi-gas Filter

- Safety Lens
- PAPR Waist Belt Assembly
- PAPR Breathing Tube

Part # 16-018-24-GT

Z-Link® Radiant Heat Respirator with Gold Visor and PX5® PAPR

- Safety Lens
- Aluminized shoulder cape and top, rear, and breathing tube covers
- PAPR Waist Belt Assembly
- PAPR Breathing Tube

⚠

WARNING

PRODUCT SELECTION

1. Determine what type of protection is required for your activity.

As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
2. Check product specifications.

Contact GVS-RPB® or check the product instruction manual (downloadable from gvs-rpb.com) for complete specifications, including approvals, standards, and regulations to which the product conforms.
3. Make sure you have a complete system.

Verify that you have or are purchasing all required components. System requirements are available from GVS-RPB® or in product instruction manuals.
- Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-GVS-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.
